

# URGENT CALL FOR ACTION!!!

**Date: Thursday, November 28**

**Location Turnpike Lane Station**

**Time: 17.00**

Kurdish people who had to migrate to Europe from the Republic of Turkey, where the Kurdish people's right to life and existence is denied, their political activities are restricted and slavery is imposed, are now being subjected to attacks and criminalisation attempts in the UK.

This morning, hundreds of police raided the Kurdish Community Center and the homes of its Kurdish political activists in a dawn operation and detained 6 people.

8 people who protested were detained with a police attack.

The Community Centre is closed and filled with dozens of police officers, and it is said that our community Centre will be under occupation for days.

The day is the day to resist against these pressure and liquidation attacks.

We call on all our people to join the march we will start in front of Turnpike Lane station on Thursday, November 28th.
